Mail Client Configuration for username@rutgersalumni.org

When accessing an email account through a desktop email application such as Outlook Express®, the email application will require specific information about that email account. You can use the auto-configure options below to attempt to automatically configure your email application. If the available options are not compatible with your application, you will need to use the Manual Settings information to configure the application.

Note: IMAP email access coordinates between the server and your mail application. Messages that have been read/deleted/replied-to will show as read/deleted/replied-to both on the server and in the mail application. POP3 does not coordinate with the server. Messages marked as read/deleted/replied-to in the mail application will not show as read/deleted/replied-to on the server. This means that future downloads of your inbox or other mailboxes with POP3 will show all messages as unread.

Please select an application:

- [Auto-Configure Microsoft Outlook 2000® for IMAP Access](#)
- [Auto-Configure Microsoft Outlook 2000® for IMAP Access \(SSL\)](#)
- [Auto-Configure Microsoft Outlook 2000® for POP3 Access](#)
- [Auto-Configure Microsoft Outlook 2000® for POP3 Access \(SSL\)](#)
- [Auto-Configure Microsoft Outlook Express® for IMAP Access](#)
- [Auto-Configure Microsoft Outlook Express® for IMAP Access \(SSL\)](#)
- [Auto-Configure Microsoft Outlook Express® for POP3 Access](#)
- [Auto-Configure Microsoft Outlook Express® for POP3 Access \(SSL\)](#)
- [Auto-Configure Mac Mail.app® for IMAP Access](#)
- [Auto-Configure Mac Mail.app® for IMAP Access \(SSL\)](#)

* Mac Mail IMAP Note: The "IMAP Path Prefix" needs to be set to INBOX otherwise Mail.app will not be able to store deleted, draft or sent mail on the server. [click for more info](#)
